# RESILIENCE

## 2025

# This Year's Theme

Dear members and partners, we are deeply grateful for your unwavering support throughout the years. Your belief in us and continued encouragement have been the foundation of this organization's existence. We couldn't have come this far without you—thank you!

This year, we are proud to announce our theme: **Resilience.**

We chose this theme to honor the strength, perseverance, and adaptability that carry us through challenges and inspire growth. In times of uncertainty and change, resilience empowers us to navigate the unknown with courage, flexibility, and hope. It reminds us that even in the face of adversity, we can rise, learn, and emerge stronger.

Especially now, in a time of change and uncertainty, it's more important than ever to stay focused on higher-level goals, maintain a positive mindset, and find your own path to building resilience. But resilience doesn't happen in a vacuum. It thrives through connection. The power of gathering, sharing experiences, exchanging ideas, and seeking inspiration from others – whether through working with a coach,

connecting with a mentor, or simply having a coffee chat with a like-minded individual – is invaluable.

At Polish Professional Women of Silicon Valley, this is exactly what we do. By embracing a growth mindset together, we turn challenges into opportunities, learn from our collective experiences, and build a strong network of knowledge, resources, and support. These connections become a foundation for resilience, offering the guidance and encouragement we need when the path ahead feels uncertain.

Together, let's embrace resilience, support one another, and continue to make a lasting impact – no matter what lies ahead.
